April 16, 2019

Hello Club Member,

The Ontario Council of Camera Clubs is excited to present to you a new and very special member benefit. Partnering with Photo Tour Trekkers and Tourcan Vacations, the O3C will offer an ongoing photography tour program, which will kick off this fall, with a weekend trip to Parc Omega, Montebello, Quebec. Two trips will be scheduled in each club season.

Please follow the links below for complete details on the 3 photography trips that are now open for booking. Each link includes a short description of the location, what you can expect to see and the daily itinerary, with a registration link at the end.

Not only do the trips vary in location and length, each one offers a different price level and photographic opportunity, although each trip is suitable for all skill levels. Our exclusive trips will give you excellent world travel and learning experiences.

Please read all of the terms and conditions to learn what is included in your selected trip as well as what is excluded and, therefore, your responsibility.
